

Innovative Thinking & Strategic Alignment

Course Duration – 1 Day

Course Cost – \$450 pp

CLF level Alignment

MMDF Alignment

Prerequisite

N/A

Overview

Changing workforce needs and contemporary business drivers highlight the increasing importance of innovative thinking and clear strategic alignment in leaders at all levels of the NTPS.

Managing innovation is about more than just planning new products, services and technological inventions. It's about conceptualising, organising, mobilising, and providing services in new ways.

This one day session will leave you with an understanding of how innovation and strategic alignment come together to inform and drive organisational effectiveness.

Who should attend this course?

If you think strategic planning powers strategic innovation, you're living in the old world. Design thinking powers strategic innovation. If you would like to develop your skills and understanding of innovation and strategic alignment this one day experiential program is for you.
